## Expert Witness Work

Trials testified: 3  
Depositions taken: 12  
Noninfringement reports filed: 10  
Invalidity reports filed: 5  
Cases joined: 48

### **Expert Witness Skills and Knowledge**

Possess a strong background in computer science and a work history in the areas of database development, networking, markup languages, information security, web development tools and technologies, and large-scale, high-volume websites. Experience as an expert witness dates back to 2009. Have testified at trial on cases involving mobile apps (Advanced Ground Information Systems), e-commerce and online shopping (Soverain), and the operation of websites, webpages, and web-based user interfaces (Alcatel-Lucent), helping to secure excellent results for all Defendants. Have also worked on cases involving online product catalogs and their digital organization and representation, travel websites with combined air, hotel, and rental car packages, and social networking sites that involved modeling and using information about interpersonal relationships to predict potential additions to personal and professional networks online. Feel free to contact attorneys identified below, all of whom should be happy to provide references and reviews of my skills, knowledge, demeanor, and abilities.

### **Expert Witness Experience**
